

# The Synchronization of Civilizations in the Eastern Mediterranean in the 2<sup>nd</sup> Millennium BC

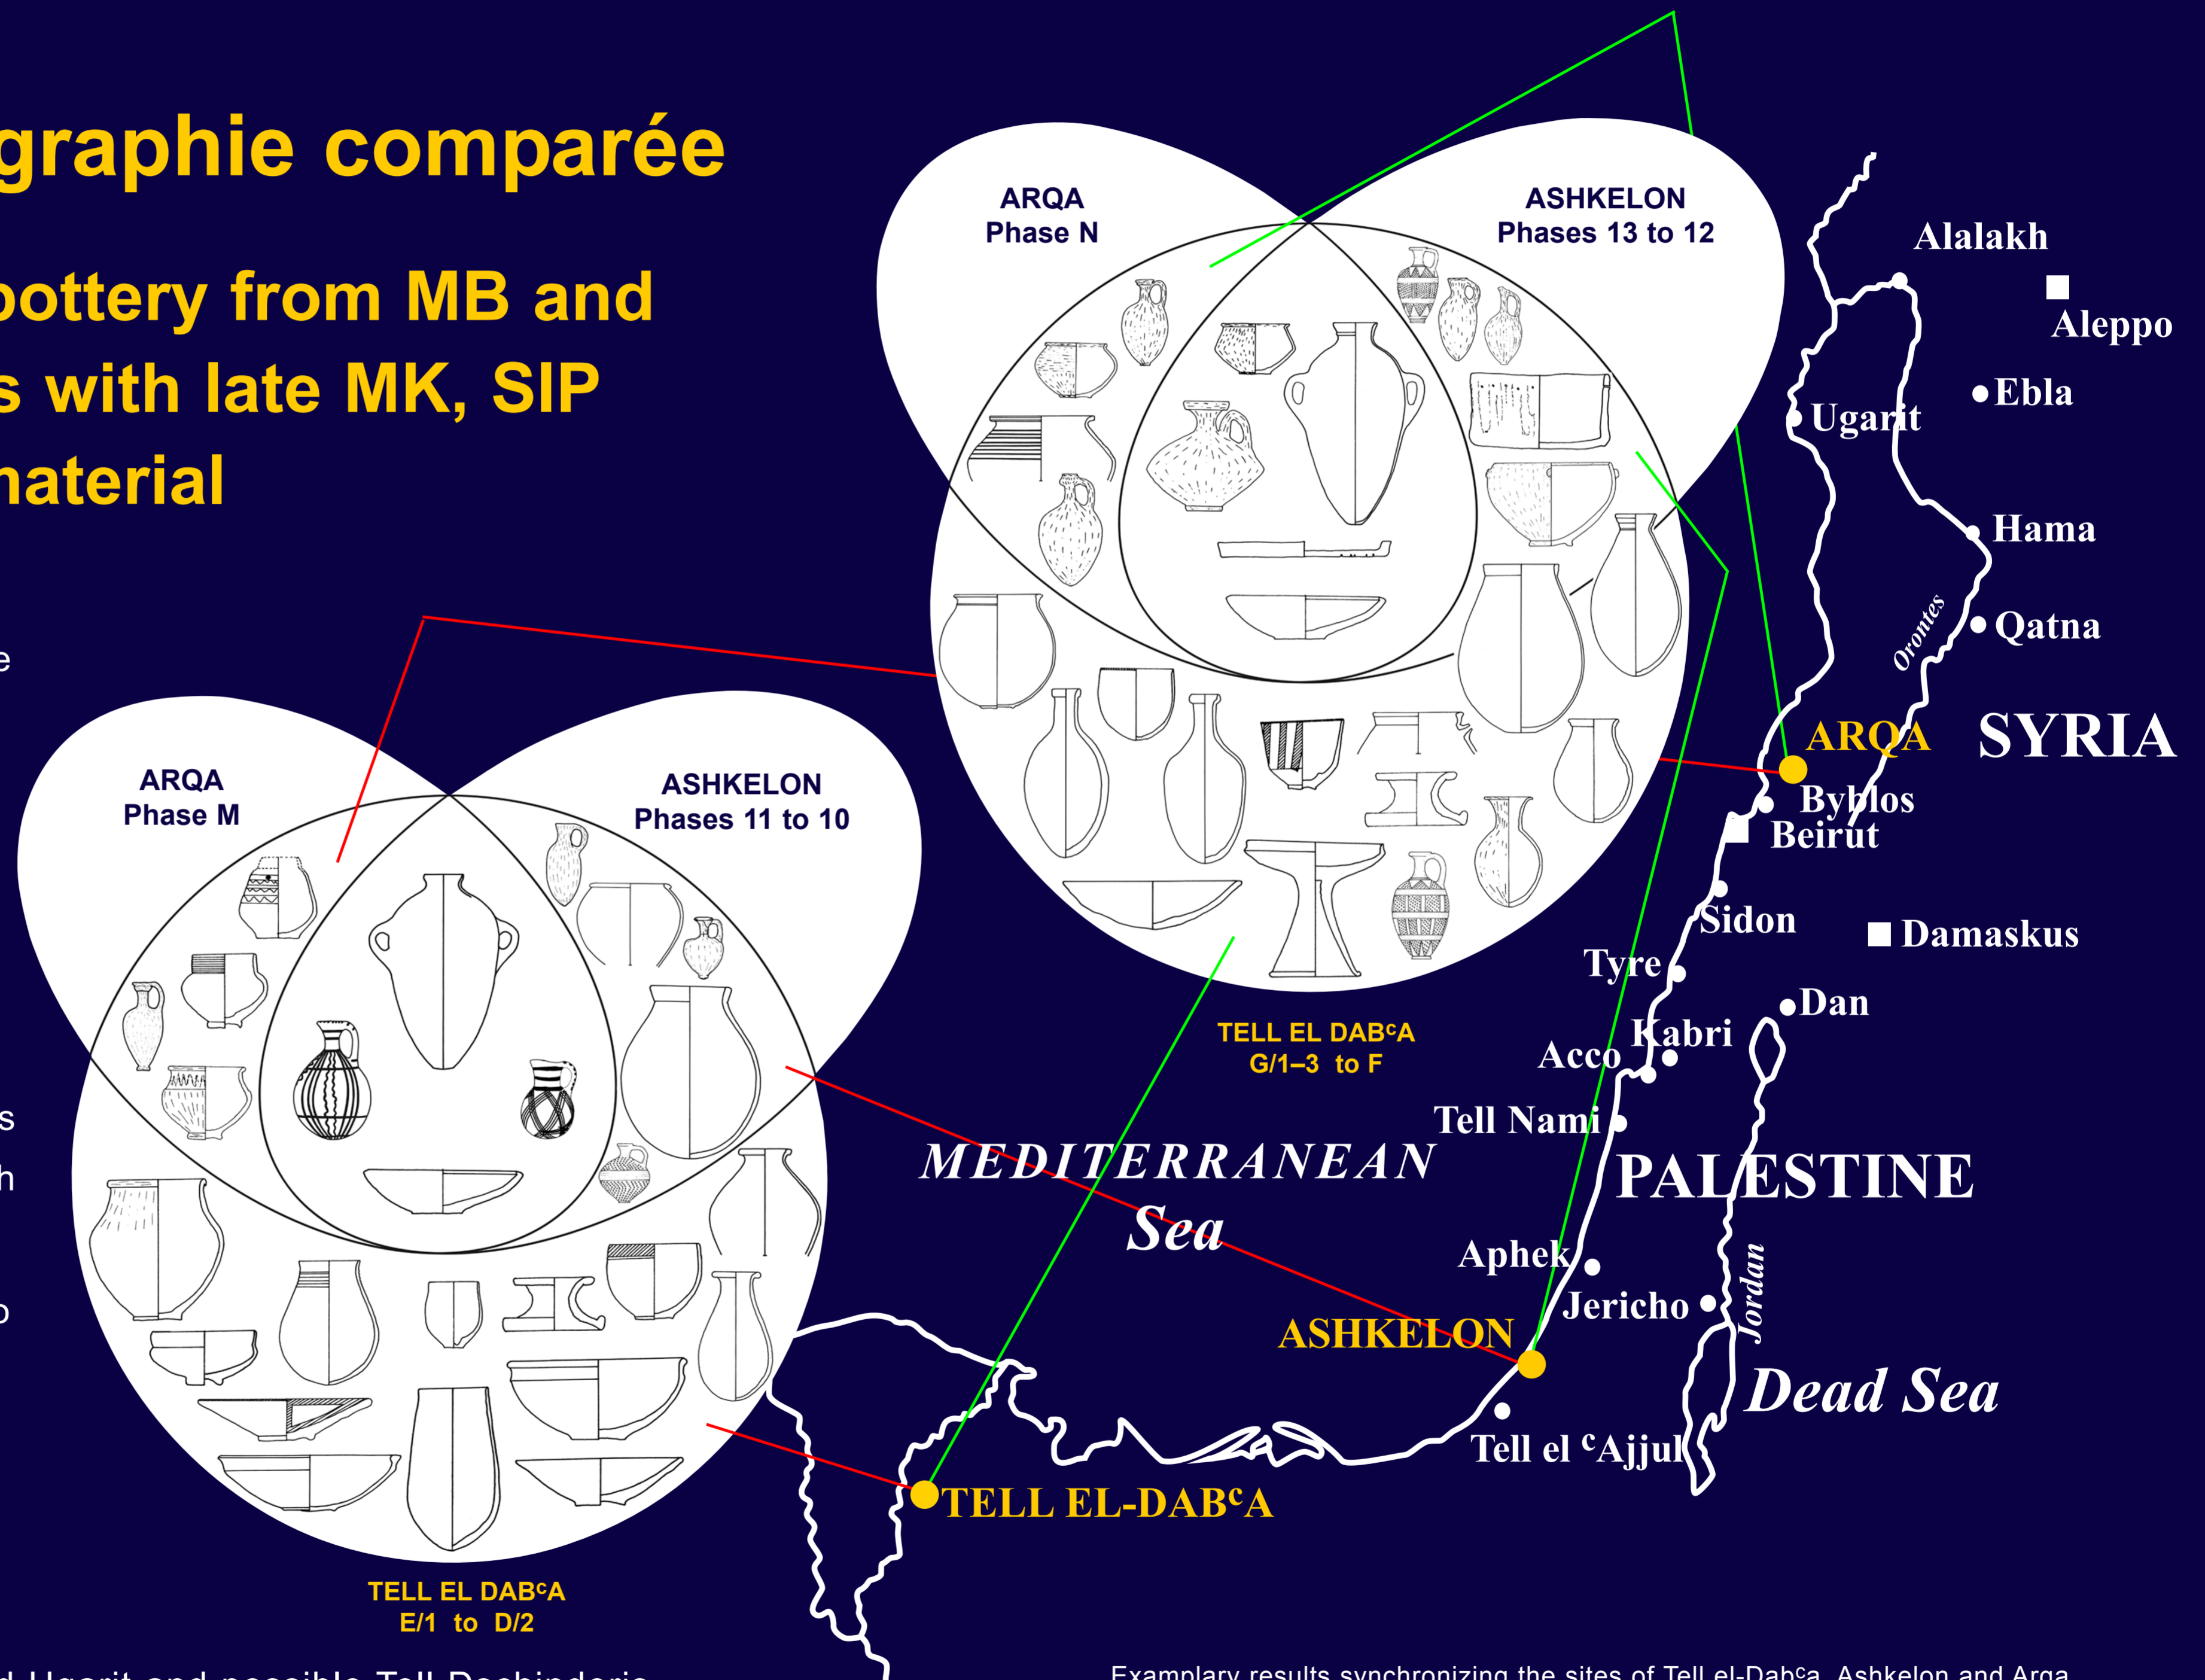

## Project 1419: Stratigraphie comparée

### Synchronisation of the pottery from MB and LB Levantine Sequences with late MK, SIP and early NK Egyptian material

#### Aims are

Tell el-Dab<sup>ca</sup>/Egypt being the linking key-site

- to achieve the synchronisation of stratigraphies of key sites from Syria to Palestine and Jordan
- to extend this research to multi-stratified sites in Cyprus and the Aegean in a further project
- to get a levelled relative stratigraphy in this region, which is the base for further research
- to built up a relative chronology along the Levantine coast, which will be connected to the historical chronology of Egypt
- based on pottery from Egypt/Tell el-Dab<sup>ca</sup> over Tell el-<sup>c</sup>Ajjul, Ashkelon, Tel Aphek, Tel Ifshar, Tel Nami, Acco, Tel Kabri and Tel Dan to Sidon, Byblos and Tell Arqa and further north to Qatna, Ebla, Tell Tweini and Ugarit and possible Tell Dschinderis, Kineret Hüyük and Alalakh/Turkey

Exemplary results synchronizing the sites of Tell el-Dab<sup>ca</sup>, Ashkelon and Arqa
